(\*\*) Reading Anthracite Company permit no. 666M009 showed production figure on Annual of 1,130 tons of coal mined. But the year-to-date figure taken from Monthly Tonnage Reports for permit no. 666M009 show a figure of 12,344. Reason for the difference is unknown.

PLEASE NOTE THE FOLLOWING: The Schuylkill County total surface production figure taken from the Annual reports show a total figure for the year of 648,093. The year-to-date production figure taken from the Monthly Tonnage reports submitted to the Statistical Unit in the Harrisburg office show a total figure of 1,459,151.

The difference of county totals is due to the fact of the above mentioned missing reports that were not received from the Pottsville District Office this date 4/19/84 when this county was compiled for its edition into the Annual publication.
